

Winston Churchill Memorial Trust

The Winston Churchill Memorial Trust provides New Zealanders with an opportunity to apply for funded international travel and research in their topic of interest. For the first time, in 2019, the Trust, alongside the Australia and New Zealand School of Government (ANZSOG), are offering the Winston Churchill ANZSOG Fellowship (Fellowship).

It will be awarded in 2019 for travel in 2020 and will enable a Māori who is a permanent member of the New Zealand public service to travel overseas for up to 6 weeks to study public sector practices which lead to positive outcomes for indigenous communities.

The Winston Churchill Memorial Trust provides New Zealanders with an opportunity to apply for funded international travel and research in their topic of interest. Whether it is studying the environmental protection of the Pacific Islands, urban design, or international connectivity in trade relations, The Trust Board welcomes applications, hoping to find Fellows along the spectrum of curiosity and emerging talent in their field of interest.

Through the Churchill Fellowships, Kiwis are able to have extraordinary opportunities. New Zealanders can apply for funding for international travel to immerse themselves in an experience of learning, networking, and studying in their field of interest. With new perspective and leadership skills, applicants return home enriched with knowledge to apply and contribute to the enhancement of their communities around New Zealand.

The Trust Board welcomes applications from all walks of life and different professions, industries, regions, backgrounds. When developing proposals and itineraries, applicants should consider the immense learning potential from cultures and experiences in the Pacific and Asia region as well as Europe, North America, and the United Kingdom.

Don't miss out on the opportunity of a lifetime. Applications for 2020's #WCMT Fellowships open on the 1st May 2019 and close on 31 July 2019.
